**Building Resilient Communities**

The Community Emergency Response Team (CERT) program educates volunteers about disaster preparedness for the hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. CERT offers a consistent, nationwide approach to volunteer training and organization that professional responders can rely on during disaster situations, which allows them to focus on more complex tasks. Through CERT, the capabilities to prepare for, respond to and recover from disasters is built and enhanced.

CERT training is a commitment of **20 hours of training**. There is no cost for the training. Only those who successfully complete the practical exercise with hands-on instruction in fire suppression, search and rescue, cribbing, and medical training will receive a certificate of completion.

\*\*\*CERT courses may be subject to cancellation at any time prior to start of class, if minimum registration number is not met\*\*\*

Participants will be provided a free backpack with preparedness items!
